

For 3 to 8 players,
ages 8 and up.

SLICE

A PIZZA GAME

*Take a slice
of the Action!*

Ready to **roll in** the dough?
Get ready for a **pizza party** where
speed, strategy, and a dash of luck
will help you rise to the top!

What's in the Box

Fresh rules, hot out of the box:

- 24 Pizza Order cards
- 128 Pizza Slice cards
- This rulebook

Race to grab matching pizza slices and complete your orders before anyone else! Watch out for Hot Sauce bombs that block your progress.
The First player to finish three pizzas joins the upper crust!

Setting Up The Game

Time to cook up some competition!

1. Make two card piles:

- Shuffle the Pizza Order cards and place them face-down
- Shuffle the Pizza Slice cards and place them face-down as the draw pile

2. Give each player:

- 1 Pizza Order card (place it face-up)
- 8 Pizza Slice cards (place them face-down in a circle around your order - aka your pizza!)

3. Pick a starting "Drawer"

(usually the player with the quickest hands)

Playing The Game:

On Your Turn

1. The Drawer pulls a card from the draw pile and places it face-up in the center (this makes the Open Pile)
 - If the face-up card matches a topping on your Pizza Order card, slap your hand on it first to grab it!
 - If two or more players slap the card, the first to do so wins. If simultaneous, the hand covering the most wins
 - If nobody grabs the card, the Drawer counts to 3 silently and draws another card

2. If you grab a card:

- Match the slice card with the correct topping on your pizza order card, replace the face-down card with the new one, and reveal it.
- If the revealed card matches any other toppings on your pizza order card, continue swapping cards to complete your pizza order.
- When you have no more topping matches, place the card face-up in the Open Pile for others to grab
- You are now the new Drawer

Important Note: You are **not allowed** to grab cards when you are the Drawer

Getting Burned!

Too hot to handle?

Here's what happens if you grab a card you don't need in your pizza order:

1. All your **face-up** slice cards go to the Open Pile (Hot Sauce cards are not discarded when you get burned)
2. The entire Open Pile is collected and placed at the bottom of the draw pile
3. Draw new face-down cards to fill all the empty spots in your circle
4. You become the new Drawer

Finishing a Pizza

When all 8 slices of your pizza match your order:

1. Place the last card you replaced face-down next to your pizza (keep it hidden; see picture)
2. Move all your Pizza Slice cards to the Open Pile, then place the entire Open Pile at the bottom of the draw pile
3. Get a new Pizza Order card and 8 new face-down slices
4. Turn over your hidden card and place it on the Open Pile
5. The Game continues with you as the new Drawer

Special Cards

Need some extra toppings in your strategy?

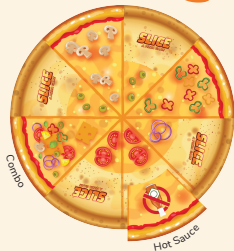

Hot Sauce Cards

- Grab these to block other players
- Place them on any face-down slice in another player's circle (see picture)
- That slice remains blocked until they grab a Combo card or a matching slice for the blocked topping
- When removed, both cards go to the Open Pile (Hot Sauce card on top). Discarded Hot Sauce cards cannot be used by other players
- You can't put a Hot Sauce card on a slice that's already blocked

Combo Cards

These are wild! Use them as:

- Any pizza slice you need
- A way to remove Hot Sauce blocks

HOT SAUCE

COMBO

Optional Rules

Two-Player Game

A perfect personal pizza variant:

- The Drawer uses their non-dominant hand to reveal cards
- **Both** players use their dominant hand to grab
- Everything else stays the same

Pizza Reset

Need a fresh start? Time to toss out your old slice of bad luck!

- If your pizza gets burned (by mistake or your own choice), remove **ALL** your cards from your pizza. (including **any** Hot Sauce blocks!)
- Start fresh with 8 new face-down cards
- This is great for escaping tough situations, offering a high-risk, high-reward option

Hot Tips for Topping the Competition!

- Keep your grabbing hand flat on the table between turns
- When revealing a card on your pizza, make sure other players can't see it!
- The best way to discard a slice card to the open pile is by placing your own card face-down on top of the Open Pile, then immediately flipping it over and removing your hand quickly so other players can easily grab the card
- Watch out for pizza toppings you've already found
- Don't forget you can use Combo cards to break free from Hot Sauce!

Winning!

Complete three pizza orders to prove you're the upper crust!

May the best pizza maker rise to the top!
